

EcoFitStyle: A SUSTAINABLE FASHION WEBPAGE

Presented by

**Durga Devi
Subramanian**

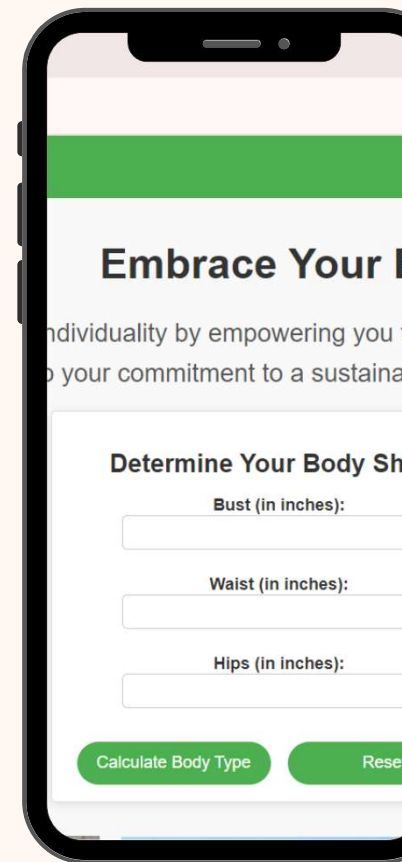

Introduction to EcoFitStyle

An innovative webpage designed to enhance personal style while promoting sustainability.

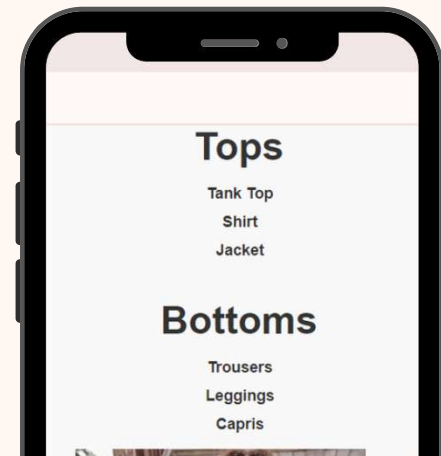

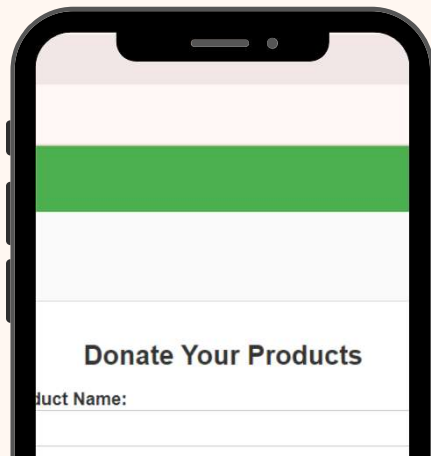

Key Features

- Body type calculator based on Bust, Hip, and Waist measurements.
- Instant dress suggestions and a user-friendly pop-up questionnaire for personalized recommendations.
- Options for sustainable fashion, including thrifted and recycled garments.

Sustainability Focus

- Incorporates a donation feature for gently used clothing items.
- The backend team verifies donations, and approved items undergo an upcycling process to be resold as sustainable products.

What is Your Product?

Core Functionality of EcoFitStyle

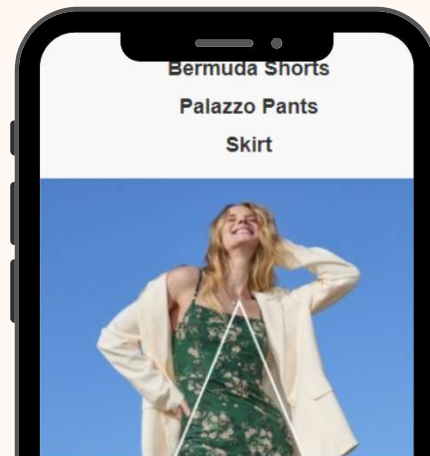

- **Body Type Calculator**
 - Provides tailored dress suggestions for individual body shapes.
- **Dress Recommendation System**
 - Filters options based on user preferences, including eco-friendly choices.
- **Donation Process**
 - Users can upload product details and images for verification.
 - Donors earn reward points for their contributions, encouraging participation.

Sustainable Fashion

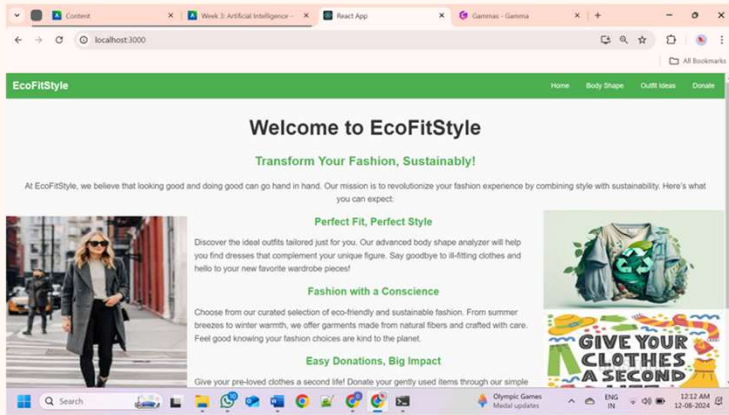

- Addresses the environmental impact of textile waste by promoting recycling and conscious consumerism.

User Benefits

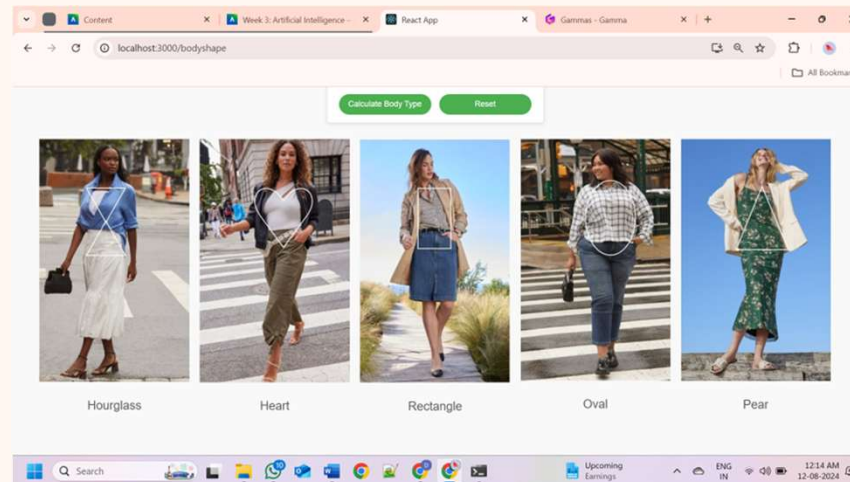

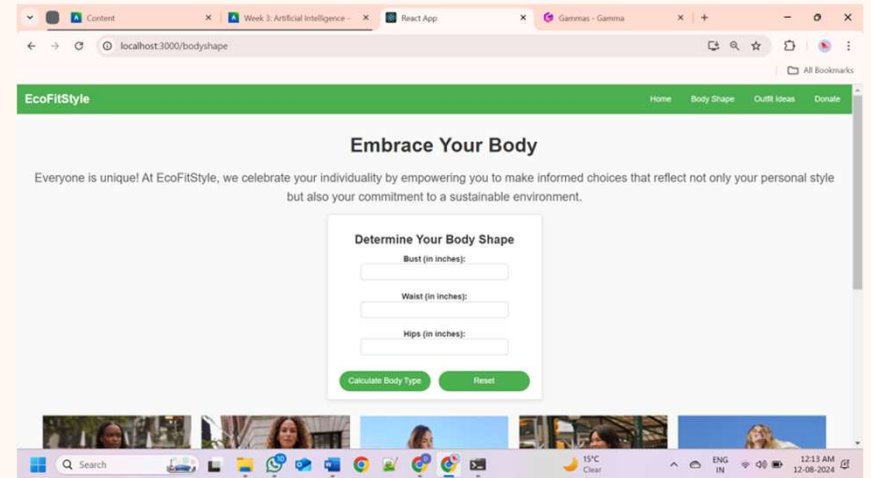

- Helps individuals find the perfect fit while making environmentally responsible choices.

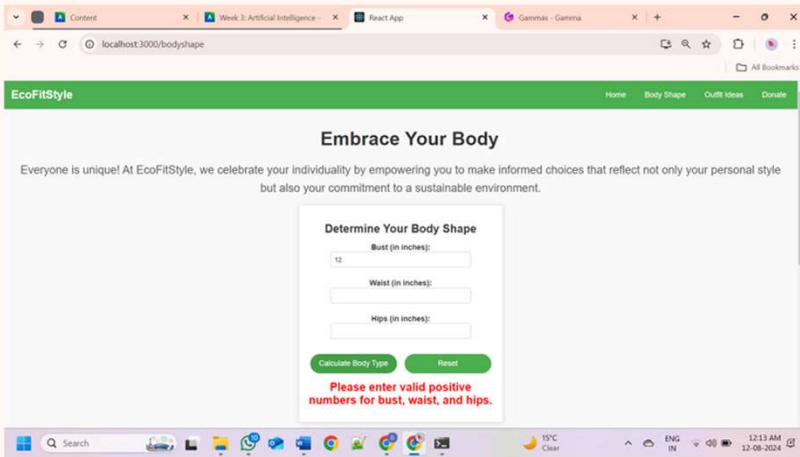

Home Page

Body Shape page

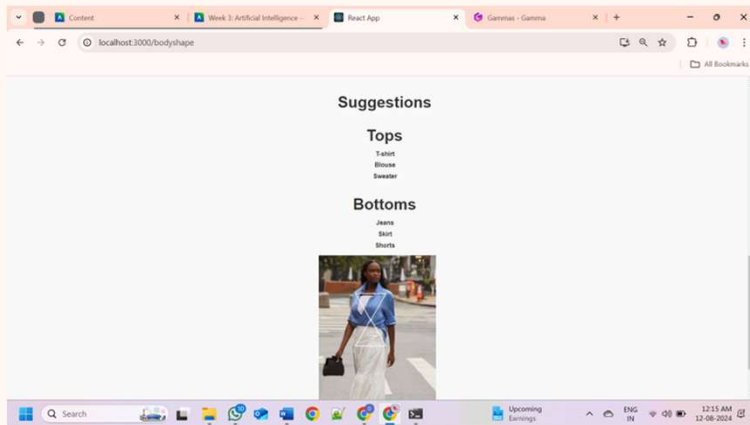

Field validation for “Calculate Body Type” button

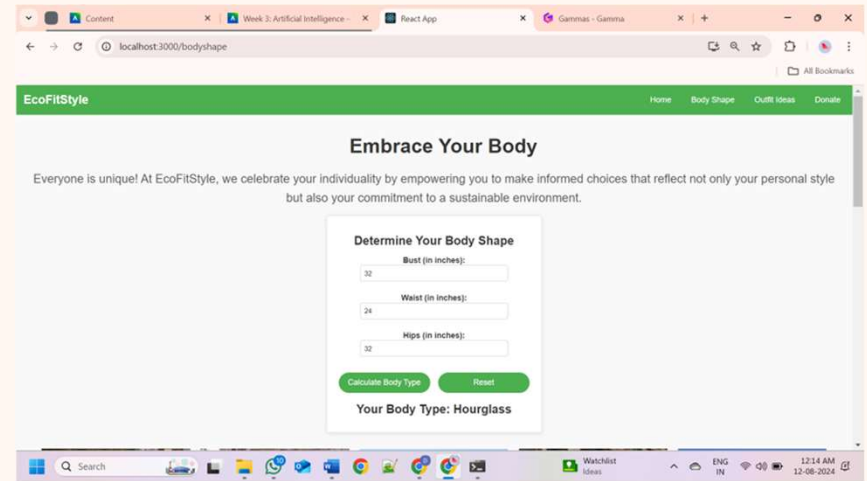

The screenshot shows a web browser window with the URL `localhost:3000/bodyshape`. The page has a green header with the text "EcoFitStyle" and navigation links: "Home", "Body Shape", "Outfit Ideas", and "Donate". The main heading is "Embrace Your Body" with a subtext: "Everyone is unique! At EcoFitStyle, we celebrate your individuality by empowering you to make informed choices that reflect not only your personal style but also your commitment to a sustainable environment." Below this is a form titled "Determine Your Body Shape" with three input fields: "Bust (in inches):" with the value "12", "Waist (in inches):", and "Hips (in inches):". There are two green buttons: "Calculate Body Type" and "Reset". A red error message is displayed below the buttons: "Please enter valid positive numbers for bust, waist, and hips."

Suggestions listed based on Body Shape calculator

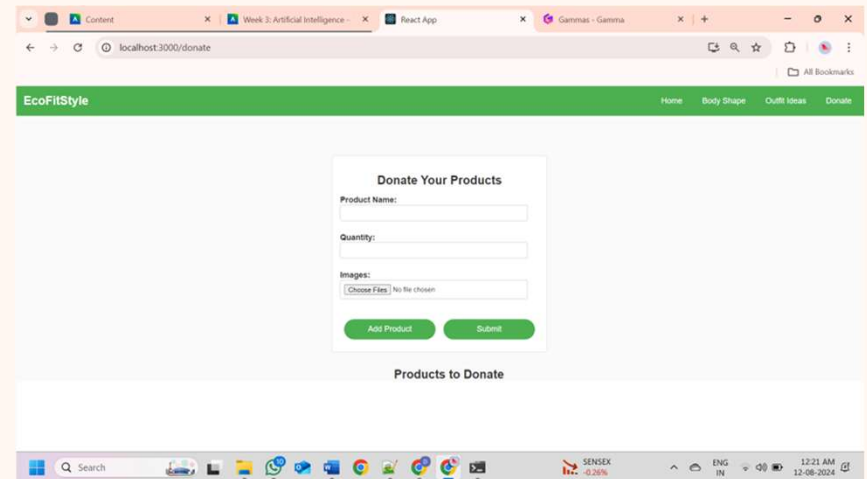

The screenshot shows a web browser window with the URL `localhost:3000/bodyshape`. The page has a green header with the text "EcoFitStyle" and navigation links: "Home", "Body Shape", "Outfit Ideas", and "Donate". How Will This Product Help?

For Computer Science Professionals

- **Technical Development**

- Opportunity to work on innovative solutions in web development, data management, and UX/UI design.
- Collaboration in building algorithms for personalized recommendations and sustainable practices.

- **Innovation and Problem-Solving**

- Encourages professionals to develop solutions addressing environmental issues through practical applications of their skills.

For Consumers

- **Personalized Shopping Experience**

- Provides tailored clothing suggestions based on individual needs, promoting a customized fashion experience.

- **Sustainable Choices**

- Empowers consumers to make eco-friendly decisions while shopping, fostering a sense of responsibility.
- Fosters a community focused on environmental responsibility, creating a shared commitment to sustainability.

Future Impact on Computer Science

Innovation in Fashion Technology

- Sets a precedent for integrating sustainability into tech-driven solutions in fashion.

Encouraging Sustainable Practices

- Influences future development of applications that prioritize eco-friendly practices.

Empowering Consumers

- Encourages a shift in consumer behavior toward mindful and sustainable choices.

Broader Implications

- Contributes to a more sustainable future in various industries, driven by technology and compassion.

Thank You
